

MUHAMMAD USAMA

Senior Full-Stack Engineer | React.js · Next.js · Node.js · TypeScript | AI-Augmented Product Engineering

Lahore, Pakistan | +92 305 2935815 | usama171034@gmail.com | [linkedin.com/in/muhammad-usama-1b386528b](https://www.linkedin.com/in/muhammad-usama-1b386528b)

PROFESSIONAL SUMMARY

Senior Full-Stack Engineer with 5+ years of experience building scalable, production-grade web applications using React.js, Next.js, TypeScript, Node.js, Express.js, PostgreSQL, MongoDB, Prisma, and AWS. Strong background in frontend architecture, API integration, data-driven workflows, and responsive UI systems. Experienced in leading technical decisions, mentoring developers, translating business requirements into engineering solutions, and using modern AI tools to improve debugging, refactoring, documentation, and delivery efficiency.

CORE SKILLS

Frontend	React.js, Next.js, TypeScript, JavaScript, Redux Toolkit, React Query, HTML5, CSS3, Tailwind CSS, Material UI, Chakra UI, Bootstrap, SCSS, Angular
Backend	Node.js, Express.js, REST APIs, API Integration, Authentication, Server-Side Logic
Databases	PostgreSQL, MongoDB, Prisma ORM, Data Modeling
Cloud & DevOps	AWS, Git, GitHub, CI/CD, Deployment Workflows, Environment Configuration
Architecture	Scalable Frontend Architecture, Reusable Components, Responsive Design, Performance Optimization, Code Reviews, Technical Documentation
AI & Productivity	AI-Assisted Development, Prompt-Driven Debugging, Refactoring, Documentation, Test Planning, Workflow Automation

PROFESSIONAL EXPERIENCE

Senior Software Engineer

Feb 2022 - Present

CodeFulcrum, Lahore, Pakistan

- Lead full-stack delivery for web applications using React.js, Next.js, TypeScript, Node.js, and Express.js
- Define scalable React/Next.js project structures, reusable component systems, routing patterns, and state management approaches
- Build responsive, high-performance user interfaces with focus on usability, maintainability, and accessibility
- Integrate REST APIs and data-driven workflows connecting frontend experiences with backend services and databases
- Collaborate on data models and backend flows using PostgreSQL, MongoDB, and Prisma
- Apply AWS and deployment workflow knowledge to support production readiness and environment configuration
- Mentor and train developers on React.js, Next.js, TypeScript, code quality, and modern frontend practices
- Work directly with clients and stakeholders to translate requirements into technical specifications and delivery plans
- Use AI-assisted engineering tools to accelerate debugging, refactoring, documentation, and code review preparation

Software Engineer

Mar 2021 - Jan 2022

Graffitecs Solutions, Lahore, Pakistan

- Developed responsive web interfaces using React.js, Next.js, TypeScript, JavaScript, HTML, and CSS
- Implemented reusable UI components and frontend workflows aligned with business requirements
- Integrated backend APIs, handled data rendering, and supported debugging for end-user application flows
- Collaborated with senior developers through code reviews, troubleshooting, and documentation
- Built strong fundamentals in task ownership, clean code, and reliable feature delivery

PROJECT HIGHLIGHTS

MYEPC - Energy Certification & Document Management app.myepec.be Developed React.js and TypeScript interfaces, integrated APIs, and implemented map and document management workflows for building energy performance certification.	TrackHero - Fleet Management Platform trackhero.com Built Next.js-based interfaces and integrated real-time data APIs for vehicle tracking, reporting, and fleet activity management.
STRADA - AI-Enabled Building Management strada.ai Developed UI modules and integrated AI-supported workflows for automated task generation, vendor management, certifications, and events.	Lalaji - Marketplace & E-Commerce Platform lalaaji.com Implemented marketplace UI features including cart, billing, product flows, and checkout experiences.
SkoolFame - School Management Platform skoolfame.com Designed and developed interfaces for school management, user groups, posts, and administrative workflows.	

EDUCATION

Bachelor of Computer Science (BSCS)

Feb 2017 - Feb 2021

Khawaja Fareed University of Engineering and Information Technology, Rahim Yar Khan, Pakistan
